Welcome to the Healthy Dancer Canada 5th Annual Conference 2012. We are so pleased to have you join us today as we examine the beliefs and/or practices that contribute to, or undermine, the health and well-being of dancers. We are fortunate to have many fine presenters, from across Canada, provide us with their varied perspectives on dance myths and facts through oral presentations, performances, movement sessions, poster presentations and panel discussions. We hope that you will join the discussion today and continue it in the coming months, both on Healthy Dancer Canada’s Facebook page and wherever you are involved in dance.
